

The Header Table Notebook

AVA Fixture Studio / English / 2026-09-28

1. Inheritance

A bold serif parent establishes inherited defaults. Its words continue onto a second line so the generous line spacing is visible.

This child explicitly resets bold to false and switches to a sans serif family. It begins without an indent and uses tighter line spacing.

A monospaced paragraph stays in reading order.
Its second line retains an intentional break.

2. Table header patterns

Table Q1. Column headers in the first row.

Place	Day	Night
Harbour	4	2
Workshop	3	1

Table Q2. Row headers in the first column.

Harbour	4	2
Workshop	3	1
Bridge	2	0

Table Q3. Combined row and column headers.

Place	Day	Night
Harbour	4	2
Workshop	3	1
